

All roads lead to MUKWONAGO

In 2011 State Highway 83 will be closed from the north side of the Village of Mukwonago to Genesee while the road is improved and widened to four lanes. During this construction period, the **entire Village of Mukwonago will continue to be open for business** with alternate access from the north. There should be no changes from the South, East and West but it may be challenging to reach Mukwonago from the North.

The Chamber of Commerce suggests following State Highway 59 to North Prairie, then taking County E south to

County EE, then east to County NN to the Village of Mukwonago. Another route from Waukesha would be County I to Hwy NN to the Village. The official State detour will also be marked, looping from Genesee to Waukesha to Vernon and then back to Mukwonago.

Just remember that your favorite businesses are still open and worth the trip since "All Roads Lead to Mukwonago!" Check out the Chamber of Commerce website at www.mukwonagochamber.org for construction updates. We **thank you** for your patience, see you soon!
